Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133).
- Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) ☐ Responsive to communication(s) filed on ____.
- 2a) ☒ This action is **FINAL**. 2b) ☐ This action is non-final.
- 3) ☐ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

Disposition of Claims

DETAILED ACTION

This is in response to Applicant's amendment filed 6-9-03. Claims 1-9 and 11-19 are pending in this application.

Claim Objections

Claims 1-9 are objected to as containing non-elected subject matter. This objection may be overcome by limiting the claims to the elected subject matter identified below.

The following generic concept as depicted in claim 1 is identified for examination along with the elected embodiment: Ar is arylene; R³ is H or alkyl; R⁴ is H or an alkyl group which may be substituted with one or more -OH or -NH₂ groups; R⁵ is H or alkyl; R⁶ is H or alkyl; R⁷ is indol-3-yl; R⁸ is H, alkyl; and X is as defined except that R¹ is -OH, -C(=O)OR², or alkyl. The remaining subject matter of claims 1-9 is withdrawn from further consideration under 37 CFR 1.142(b) as constituting other patentably distinct inventions.

The withdrawn subject matter of claims 1-9 in part and claims 11-19 in their entirety is properly restricted as said subject matter differs in structure and element from the elected subject matter. The withdrawn subject matter is patentably distinct from the generic concept identified for examination, i.e. a reference which anticipated the generic concept, would not even render obvious the withdrawn subject matter and the fields of search are not co-extensive.

Response to Arguments

Applicant's arguments filed 6-9-03 have been fully considered but they are not persuasive. Applicant argues that the generic concept proposed in the Office Action is arbitrary, and as discussed with the Examiner, the claims as filed are fully supported and entitled to full examination at this time. Further, Applicant argues that Applicant's disclosure is extensive and includes over 200 working examples in which various substituents for R1-R8 are used and each of which has common structure of Formula (I) but outside the examiner's generic concept.

However, it is pointed out that the restriction requirement is made under 35 U.S.C. 121. 35 U.S.C. 121 gives the Commissioner (Director) the authority to limit the examination of an application where two or more independent and distinct inventions are claimed to only one invention. The Examiner has indicated that more than one independent and distinct invention is claimed in this application and has restricted (limited) the claimed subject matter accordingly. Thus, the requirement to restrict the claims in this application is predicated on the fact that the claimed subject matter involves more than one independent and distinct invention. No where do Applicants point out and give reasons why the claims do not involve independent or distinct subject matter. Applicant has not presented evidence that the examined subject matter is patentably indistinct from the non-examined subject matter. Nor have the even argued to the contrary. Moreover, the sheer number of variables, their huge possibilities, and the number of permutations and combinations thereof result in compounds so numerous and diverse so as to be a burden to classify, search, and examine.

Art Unit: 1626

Accordingly, the restriction is proper. Moreover, it would constitute a burden to extend the search because separate search considerations would be involved in both the U.S. Patents and in the literature. The examination process following the search could easily result in different and thus burdensome considerations. The search and examination of the application is directed to the generic concept identified for examination only.

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.

fax phone number for this Group is (703) 308-7922. The Official fax phone numbers for this Group are (703) 308-4556 or 305-3592.

When filing a FAX in Technology Center 1600, please indicate in the Header (upper right) "Official" for papers that are to be entered into the file, and "Unofficial" for draft documents and other communications with the PTO that are not for entry into the file of the application. This will expedite processing of your papers.

Communications via Internet e-mail regarding this application, other than those under 35 U.S.C. 132 or which otherwise require a signature, may be used by the applicant and should be addressed to [joseph.mckane@uspto.gov]. All Internet e-mail communications will be made of record in the application file. PTO employees will not communicate with applicant via Internet e-mail where sensitive data will be exchanged or where there exists a possibility that sensitive data could be identified unless there is of record an express waiver of the confidentiality requirements under 35 U.S.C. 122 by the applicant. See the Interim Internet Usage Policy published by the Patent and Trademark Office Official Gazette on February 25, 1997 at 1195 OG 89.

Any inquiry of a general nature or relating to the status of this application should be directed to the Group receptionist, whose telephone number is (703) 308-1235.
